

OUR VISION

We at Melville Cares believe older peoples' lives should be as fulfilling as at any other stage of life

OUR PURPOSE

We walk alongside people on their unique journey through later life assisting as much, or as little as they choose

OUR IMPACT

We provide services that make it easier for older people to live well at home

Our values

Empowerment

Trust

Compassion

Discipline

Accountability

Our strategic priorities

Growth	Clinical expertise	End of life support	Services into retirement living	Social opportunities
We will provide more services to more people and extend our service range.	We will provide a range of in-house clinical service options to manage risk, avoid hospital admissions, get home quicker and promote overall wellness.	We will implement services and partnerships to support each client to die where and how they choose.	We will develop a service package that brings the best of coordinated supports, mobilise shared resources and maximise benefits to residents.	We know that loneliness can be crippling and being with like minded others brings joy and purpose.

Our strategic pillars

GROW OUR FOOTPRINT	ADVANCE OUR SYSTEMS	BUILD COMMUNITY	GROW OUR WORKFORCE	MEASURE FOR INFLUENCE	ADVOCATE FOR INTEGRATED SYSTEMS
 <p>We provide excellent services and as demand grows, we will provide a greater range of services to more people, in more places.</p>	 <p>Our systems and structure make it easier for our team to keep their time and focus on what is important.</p>	 <p>We know that your experience of life is much broader than aged care, so while we provide services to meet your needs, we also partner with others to remove gaps and offer opportunities to live your life to the full.</p>	 <p>Our people are our most important asset. We are a vibrant staff and volunteer team that look after our people, offer career opportunities and recognise great work.</p>	 <p>We listen to, and work with our clients and team to continually improve and measure our impact.</p>	 <p>We work with others to close gaps and solve problems in our community and across our region.</p>
